ASGHARALI KHAN

.NET DEVELOPER

EXPERIENCE

REVENUE CYCLE REPRESENTATIVE

(November 2019 to August 2020)

I have worked as Revenue Cycle Representative at Inventurus Knowledge Solution. There I was responsible for studying and analyzing denied claims. Constantly checking the eligibility and benefits of the patients. On the other hand, we need to constantly communicate with healthcare service providers, and the insurance firms and take necessary actions based on their feedback or responses.

PROJECTS

BUG TRACKER:

Bug Tracker is an application to track errors in software. Bug Tracker uses a ticketing system to record bugs or other issues, in the software development process on a per-project basis. It implements user and role-level security to ensure only authorized users can access tickets and projects.

RENT STATION:

Browse your favorite Movies, TV shows, and Games. Search for specific movies, shows or games by their Genres or Category. Browse and get information about the latest and greatest films and games before renting or buying them. It implements user and role-level security to ensure only authorized users can access personal information of the customers.

SKILLS

.Net Framework
Asp.Net MVC with C#.
HTML, CSS, JavaScript.
Bootstrap & jQuery.
SQL Server 2019 & Entity Framework.
Git and GitHub.
